REMARKS/ARGUMENTS

This amendment is submitted under the provisions of Rule 312 and comprises minor changes made to the specification in order to overcome any inconsistencies and informalities in the wording thereof. In addition, a minor change has been made to Figure 5 of the drawings, wherein an additional reference numeral 28 was added to clarify the content thereof. Also, the nine sheets of original drawings as filed and amended have been formalized.

Care was taken not to add any new subject matter in the amendment of the specification or drawings, as set forth in detail above.

Due to the nature of the changes requested, it is believed that there will be no additional searching or other significant amount of time required of the Examiner in the review and entering of this Amendment.

Respectfully submitted,
